

PRODUCT RANGE

PLASTICISERS

ADIPIIC ACID ESTER / ADIPATE

Abbreviation / trade name	Product description
DOA	Di-2-ethylhexyl adipate
DBA / Adimoll DB	Dibutyl adipate
BOA / Adimoll BO	Benzyl octyl adipate
DINA / Plastomoll® DNA	Diisononyl adipate
DIDA	Diisodecyl adipate
DTDA	Diisotridecyl adipate

ALKYLSULFONIC ACID ESTERS / ALKYLSULFONATES

Trade name	Product description
Mesamoll	Alkylsulfonic acid ester of phenol
Mesamoll II	Alkylsulfonic acid ester of phenol
Mesamoll TP LXS 51067	Alkylsulfonic acid ester of phenol

BENZOIC ACID ESTERS / BENZOATES

Trade name	Product description
K-FLEX 500 P	DEG-DPG-benzoate
K-FLEX 850 S	DEG-DPG-benzoate
K-FLEX DP	Dipropylene glycol dibenzoate
Plaxter B 271	Dipropylene glycol dibenzoate

CITRIC ACID ESTER / CITRATE

Trade name	Product description
Citrofol A I	Triethyl citrate
Citrofol B I	Tributyl citrate
Citrofol BII	Tributyl O-acetylcitrate

CYCLOHEXANEDICARBOXYLIC ACID ESTER

Trade name	Product description
Hexamoll® DINCH	1,2-cyclohexane dicarboxylic acid ester

POLYMER PLASTICISER

Trade name	Product description
Ultramoll III	Adipic acid polyester
Ultramoll IV (RT, MV, HV)	Adipic acid polyester
Palamoll®	Adipic acid polyester
Plaxter PL 06	Polyester plasticiser

SEBACIC ACID ESTER / SEBACATE

Abbreviation	Product description
DOS	Di-2-ethylhexyl sebacate
DIDS	Diisodecyl sebacate

TRIMELLITIC ACID ESTER / TRIMELLITATE

Abbreviation / Product name	Product description
TOTM stab. and non-stab.	Tris-2-ethylhexyl trimellitate
Linear trimellitate 810, stab. and non-stab.	C8-/C10-trimellitate

STANDARD PLASTICISER

Abbreviation / Product name	Product description
DINP - Diisonanyl phthalate	Di-isononyl phthalate
DPHP - Palatinol 10 P	Bis-2-propylheptyl phthalate
DIDP (stab. and non-stab.)	Diisodecyl phthalate
DOTP - Dioctyl terephthalate	Di-2-ethylhexyl terephthalate

SPECIALITIES

ANTISTATIC PLASTICISER

Product description
Polyglycol ester

EPOXIDISED OILS

Abbreviation	Product description
ESBO	Epoxidised soybean oil
ELO	Epoxidised linseed oil

FAST FUSER

Abbreviation	Product description
DPT	Diphenyl terephthalate

GLYCEROL ESTER

Product name	Product description
Triacetin	Glycerol triacetate

HEXANOATE

Abbreviation	Product description
Tri G8	Triethylene glycol di-(2-ethylhexanoate)

PHOSPHORIC ACID ESTERS / PHOSPHATES

Trade name	Product description
Disflamoll DPO	Diphenyl-2-ethylhexyl phosphate
Disflamoll DPK	Diphenyl cresyl phosphate
Disflamoll TKP	Tricresyl phosphate
Disflamoll TOF	Tris-2-ethylhexyl phosphate
Disflamoll TP	Triphenyl phosphate
Disflamoll TP LXS 51036	Phosphate formulation

FLAME RETARDANT**PHOSPHORIC ACID ESTERS / PHOSPHATES**

Trade name	Product description
Levagard PP	Tris-2-chloropropyl phosphate
Levagard TEP-Z	Triethyl phosphate
Levagard 4090N	Phosphoric acid ester, free OH group
Levagard DMPP	Dimethyl propane phosphonate
Levagard 3000	Oligomeric phosphate ester

SOLVENTS

BCD Chemie offers all the major solvents used, from standard solvents to special solvents. These include among others:

- Aromatics
- Aliphatics
- White spirits
- Alcohols
- Ester
- Ketones
- Glycol ether
- Amines

SALTS AND SOLIDS

Salts of most acids and alkalis available and other solids.

ACIDS AND ALKALIS

For acids and alkalis, BCD Chemie also offers a comprehensive product range with all important acids and alkalis in various concentrations and purities:

Acetic acid, formic acid, fumaric acid, hydrochloric acid, malic acid, nitric acid, sulfamic acid, sulphuric acid, tartaric acid, NaOH prills, NaOH solutions, KOH, amines, etc.

SPECIALTIES

For many different industries, BCD Chemie offers a broad portfolio of binders, additives and other specialties.

These include binders for aqueous and solvent systems, silicone oils and silicone oil emulsions, silanes, antifoams, wetting agents, dispersants, rheology additives, wax dispersions.

SURFACE TECHNOLOGY

BCD Chemie develops and produces tailor-made aqueous as well as solvent-based cleaners for a wide range of applications, such as:

Cleaners for metallic surfaces, silicone removers, PU solvents, plastic cleaners, thinners, roller and screen cleaners.

BLENDS AND SERVICES

The BlendServ division of BCD Chemie produces liquid-liquid and liquid-solid blends according to customer requirements, as well as the production of complete formulations. These products are available in different containers.
