

# Industrial Fluids Products

## Concrete Release Agents

The bio-based FOMO®-series has been developed for the future to meet the demands of environmental friendliness and independence of fossil resources.

### BIO-FOMO® 0 BIO-FOMO® 1 BIO-FOMO® 2 BIO-FOMO® 3 BIO-FOMO® Eco

A bio-based form oil with exceptional low-temperature properties, functional down to -25°C.

Suitable as a release agent in mixers and chutes, and for hard surface/non-porous forms. The product is recommended for temperatures down to -10°

A general-purpose product for most types of concrete work and form materials. The product is recommended for use down to -5°C

Especially suitable for forms of porous materials such as wood and plywood and for vertical application. The product is recommended for temperatures above +5°C.

A general-purpose release agent for most types of concrete work and form materials. Recommended for temperatures down to -7°C. Awarded with the EU-Ecolabel

## Asphalt Release Agents

BIO-ATLE and BIO-BITS are bio-based advanced formula release agents and bitumen solvent.

### BIO-ATLE BIO-BITS ASPHALT OFF

Asphalt release agent that can withstand high temperatures for cleaning equipment.

Asphalt/bitumen release agent and solvent for cleaning equipment developed to mimic the solvent properties of fossil diesel.

## Bio-based Lubricants

Bio-based lubricants with a wide range of application areas.

### BIO-MULTI BIO-RELO S BIO-RELO W BIO-NLUBE 68/100

Bio-based, biodegradable and PTFE-free multipurpose lubricant spray. Unlabeled according to the CLP (no warnings).

Prevents mud from sticking to surfaces.

Prevent sticky or moist materials from sticking or freezing to surfaces in cold weather.

Bio-based saw chain oil with premium quality. Can be used all year around with exceptional lubrication and adhesion

## Industrial cleaning

Unique formulated detergents and degreasers for professionals.

### BIO-CERO BIO-RENA BIO-ABSO

A unique bio-based cleaning agent that effectively removes concrete residues from forms, vehicles, tools and other equipment.

An aromatic-free degreasing agent for professional use. Effectively removes oily dirt, asphalt and tar from machines, vehicles and other equipment.

Unique hydrophobic absorbent that absorbs up to 14 x its own weight. Made of 100% modified pulp.

Biobase Sweden innovates and delivers renewable functional fluids for better products and services globally.
